EDUCATION

BCIS Honours
University of the Free State
2023 – Graduating April 2026

TECHNICAL SKILLS

Front-End	React.js, Next.js, JS (ES6+), HTML5, CSS3, PHP
Back-End	Node.js, Express, C# (.NET), REST APIs
Databases	SQL Server (T-SQL), NoSQL, DB Design
Analysis	UML, Systems Analysis, Requirements, Journey Mapping
Tools	Git, Power BI, Visio, Draw.io, Office Suite
Other	Python, Linux (basic), GitHub Copilot

CERTIFICATIONS

- Intro to Cybersecurity - Cisco
- Power BI Dashboards - LinkedIn Learning
- Front-End Dev with .NET - LinkedIn Learning
- AI-Powered C# Dev - LinkedIn Learning

OPEN TO

- Business / Systems Analyst
- Full-Stack / Software Developer
- Frontend or Backend Developer
- IT Graduate / Junior Developer
- IT Internship - any SA province

PORTFOLIO

velenkosininkosi.github.io/WebsitePortfolio
Live site with Makro case study, How I Work section, certified experience & contact form.

PROFESSIONAL SUMMARY

IBM & BBD Award-winning BCIS Honours student graduating April 2026. I build full-stack web applications with React, Node.js & SQL, and apply structured systems analysis, UML modelling & requirements gathering to real business problems - demonstrated at Massmart (Makro) and across five officially certified UFS Demonstrator roles. Available for Dev, BA/SA, or IT Graduate roles across South Africa.

WORK EXPERIENCE

UX Researcher & Digital Strategy Intern

| Massmart (Makro) - Walmart Group | Jun 2025 – Jul 2025

- Led end-to-end UX audit of Makro's e-commerce platform (website + mobile app)
- Identified 10+ friction points across onboarding, search, checkout & post-purchase flows
- Delivered structured audit report and 30-min stakeholder presentation with Q&A
- Applied journey mapping, gap analysis & BA frameworks to align UX with business goals

[UX Research] [Business Analysis] [Journey Mapping] [Stakeholder Comms]

Demonstrator - C# Programming, UML, Systems & Infrastructure

| University of the Free State - Dept. CS & Informatics | 2024 – 2025 | 5 Modules, Officially Certified by UFS

- Certified across 5 modules: C# OOP, Software Design (UML), Systems Infrastructure, Computer Literacy & CS Lab
- Taught C# fundamentals through to OOP, Windows Forms GUI, and UML diagram creation
- Covered systems analysis, network diagrams (Visio/Draw.io) & enterprise infrastructure
- Managed mark-bearing attendance and invigilated module tests

[C#] [OOP] [UML] [Systems Analysis] [SQL] [Visio]

Corridor Prime (Ikhamanga) - Honorary Leadership Award

| House Beyers Naude, UFS | 2025

- Formally awarded Honorary Award for Exceptional Leadership - signed by Residence Head & RC VP
- Managed corridor operations, resident welfare, conflict resolution & access control

[Leadership] [Operations] [Communication]

PROJECTS

Personal Portfolio Website

| velenkosininkosi.github.io/WebsitePortfolio | 2025 – Present

- Built with HTML5, CSS3, Vanilla JS - dark/light mode, SEO-optimised, print-ready
- Includes Makro case study page, "How I Work" BA/SA section, and working contact form
